**ENTERTAINMENT NEWSLETTER FOR CHUCK E. CHEESE'S SHOW 3 2015**
**PLEASE SHARE WITH ALL CHUCK E. CHEESE'S TEAM MEMBERS.**

Good day to you, team members! We are excited to present Chuck E. Cheese's Show 3 2015! This show contains awesome music videos from artists Carly Rae Jepson, Daft Punk, Coldplay, One Direction and even a throwback from 'N Sync, because after all, It's Gonna Be *May*...(ahem). On top of all that, Chuck E. and his pals have been rehearsing and are ready to debut two new original songs! This show is sure to get you and your guests in the mood for fun. Keep on making magic!

Below is the show release schedule and play dates for the remainder of 2015:

**Show 3 – Apr. 20 through Jun. 14 (current show)**

**Show 4 – Jun. 15 through Aug. 9**

**Show 5 – Aug. 10 through Sep. 27**

**Show 6 – Sep. 28 through Nov. 1**

**Show 7 – Nov. 2 through Dec. 27**

## Audio Standards

The enclosed show will have a volume level difference of 10 dBs between the Live/Birthday shows and the regular show. Below are instructions to your Technical Managers on how to properly set and calibrate the amps for this new setting. Once the amps have been set, it is imperative that amps are not adjusted.

**Step 1:** Make sure you have the proper sound meter and it is set to weight c and reaction slow. This must be done in the morning when there is no ambient noise.

**Step 2:** For Studio C, have the control panel set at 100%. For all other shows, have the volume adjustment set to its highest level.

**Step 3:** On the Live/Birthday shows, adjust your amp until your sound meter reads about 90 dBs.

**Step 4:** Confirm your regular show is about 80 dBs in the show room and game room.

**Step 5:** Once you have confirmed the settings, remove amp knobs if possible. If you cannot remove knobs then find a way to make it difficult to randomly adjust the knobs. If none of the above can be done, then mark the proper volume level on your amp.

**Step 6:** Unplug the sense microphone(s) from the back of the Symetrix.

**Step 7:** On the next directional, go over the volume settings with the managers.

With the new settings, the loudest the show will go is about 90 dBs. If you have any questions, please get in contact with your DT or RT.
